## Scope and Content Notes

The 25th Infantry Division Association Archives Collection offers a plethora of military information concerning both official and personal matters from 1940 to the present. Materials in this collection include military reports, military handbooks, maps, photographs, poetry, academic papers, audiotapes, a videotape, newspaper clippings, and written recollections of the Vietnam War. The collection was established at the George C. Marshall Foundation in 1995 and will continue to grow.

Three major categories provide the organization for the 25th Infantry Division Association Archives. The first category includes boxes 1 through 8 and is comprised of military reports, information, and news concerning the 25th Infantry Division (a.k.a. "Tropic Lightning"). Boxes 1 through 4 contain operational reports arranged chronologically and spanning the years 1966-1971. The II Field Force Vietnam (II FFV) reports are of particular interest to military scholars and for this reason are specially labeled. Boxes 5 and 6 include a variety of army handbooks and are shelved chronologically. Most concern the Vietnam War but there is one procedure guide dated to 1948. Senior officer debriefing reports from 1967 to 1970 are in box 7. More recent information on the 25th Infantry Division, as well as some old, is found in box 8 with the Tropic Lightning newsletters and 43rd Annual Reunion booklet.

The second category of the archives contains the Eric Bergerud sub-collection. Writer Eric Bergerud is the author of

Red Thunder, Tropic Lightning and The Dynamics of Defeat, and his donations to this archival collection are significant. The publication file in box 9 commences this sub-collection and includes manuscripts, letters, and books reviews concerning Bergerud's works. A hard cover edition of The Dynamics of Defeat is also found in box 9.

Box 10 is a major strength of the entire collection in that it provides the primary information from Vietnam gathered by Bergerud. Soldiers' letters home, maps, xeroxed photographs, statistic sheets, etc. offer direct insight into the reality of the Vietnam War. Box 11 is largely composed of newspaper clippings from the war and give a third person perspective on military events and social concerns.

Box 12 offers primary information once again but gives a hindsight, rather than direct, view of the war. The box contains recollections of Vietnam and is organized alphabetically according to participants' names. More remembrances can be obtained through the audiotapes found in boxes 14, 15, and 16. Some tapes have been transcribed and their transcripts are located in box 134. Both the tapes and transcripts are ordered alphabetically by name and end the Eric Bergerud sub-collection.

The last category of material is contained in boxes 17-19 and covers a range of visual/miscellaneous material concerning the Tropic Lightning. Box 17 contains photographs from the military base in Hawaii, World War II, the Korean War, and Vietnam. The oversized file, 18, contains a 1940 photograph of the 27th Infantry, Company A. Posters, sheet music, a videotape

concerning a Vietnam soldier, and a book titled The Road to Cu Chi are additional items within this final category of material and can be found in the oversized file and box 19.
